

RobotMissions.org - Robot Platform 3D Printed Pieces

v1.0 - Oct. 8, 2016

| | item | qty | file | instructions |
|---|--------------------|-----|-----------------------------------|---|
| Base | | | | |
|  | Base middle | 2 | base/base_middle.stl | |
|  | Base motor | 2 | base/base_motors.stl | |
|  | Base flag post | 1 | base/base_flag.stl | |
|  | Base corner | 4 | base/base_corner.stl | |
|  | Sensor attachments | 2 | base/ultrasonic_sensor_holder.stl | print one, and print the other mirrored |

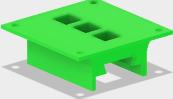

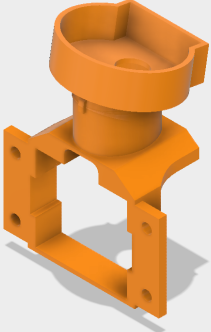

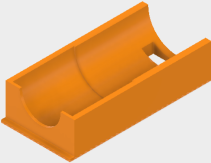

RobotMissions.org - Robot Platform 3D Printed Pieces

v1.0 - Oct. 8, 2016

| | item | qty | file | instructions |
|---|-----------------------------|-----|-----------------------------------|---|
|  | Super bright led attachment | 2 | base/led_attachment.stl | |
|  | Flag post connector | 3 | base/flag_adapter.stl | has to be printed on a 30 degree angle with supports as to avoid layer delamination if the robot falls backwards onto the flag post |
|  | Battery holder mount | 2 | base/batt_mount.stl | print one, and print the other mirrored |
| | Battery holder pieces | 2 | base/batt_holder.stl | |
| Drive System | | | | |
|  | Struts | 4 | drive system/strut.stl | print two, and then print the other two mirrored |
|  | Strut attachment pieces | 2 | drive system/strut_attachment.stl | |

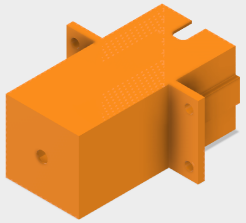

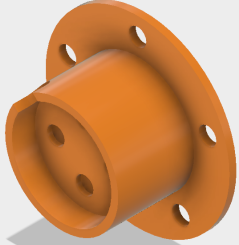

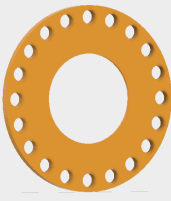

RobotMissions.org - Robot Platform 3D Printed Pieces

v1.0 - Oct. 8, 2016

| | item | qty | file | instructions |
|---|--------------|-----|-------------------------------|--------------|
|  | Mounts | 2 | drive system/mount.stl | |
|  | Dovetail key | 2 | drive system/dovetail_key.stl | |
|  | Motor mounts | 4 | drive system/motor_mount.stl | |
|  | Motor casing | 8 | drive system/motor_casing.stl | |

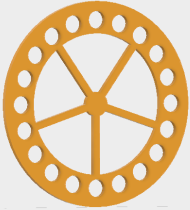

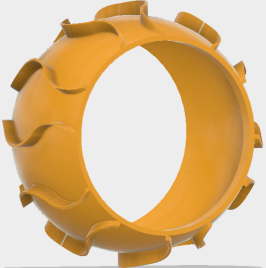

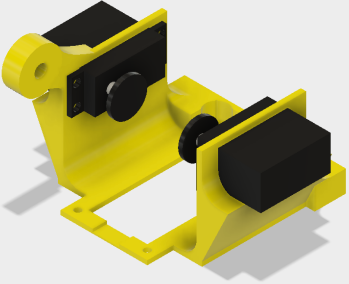

RobotMissions.org - Robot Platform 3D Printed Pieces

v1.0 - Oct. 8, 2016

| | item | qty | file | instructions |
|---|--------------------|-----|----------------------------------|--|
|  | Motor enclosure | 4 | drive system/motor_enclosure.stl | print with outer supports |
|  | Enclosure back | 4 | drive system/enclosure_back.stl | |
|  | Hub attachment | 4 | drive system/hub_attachment.stl | print on 30 degree angle with supports |
|  | Inner wheel casing | 4 | drive system/inner_case.stl | |

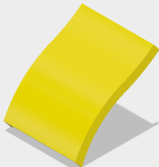

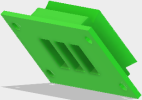

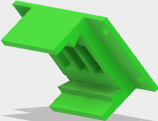

RobotMissions.org - Robot Platform 3D Printed Pieces

v1.0 - Oct. 8, 2016

| | item | qty | file | instructions |
|---|---------------------|-----|---------------------------------|--|
|  | Flexible suspension | 4 | drive system/flexible_piece.stl | TPU material, 3 perimeters, 30% infill |
|  | Outer wheel casing | 4 | drive system/outer_case.stl | |
|  | Wheel | 4 | drive system/wheel.stl | print without supports |
| Arm | | | | |
|  | Mount | 1 | arm/mount.stl | print with supports |

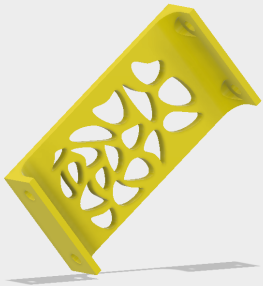

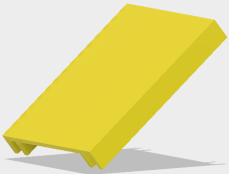

RobotMissions.org - Robot Platform 3D Printed Pieces

v1.0 - Oct. 8, 2016

| | item | qty | file | instructions |
|---|-------------------|-----|---------------------------|---|
|  | Servo arms | 2 | arm/servo_arm.stl | print one, and print the other mirrored |
|  | First stage cover | 1 | arm/first_stage_cover.stl | print with supports |
|  | Dovetail M | 1 | arm/dovetail_m.stl | |
|  | Dovetail F | 1 | arm/dovetail_f.stl | |

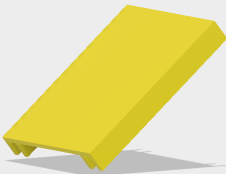

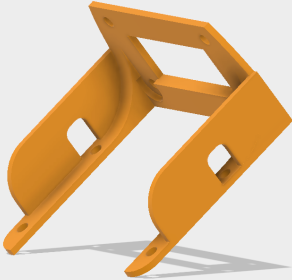

RobotMissions.org - Robot Platform 3D Printed Pieces

v1.0 - Oct. 8, 2016

| | item | qty | file | instructions |
|---|-----------------------|-----|-------------------------|---|
|  | Dovetail key | 1 | arm/dovetail_key.stl | print with supports |
|  | Second stage arms | 2 | arm/stage_arms.stl | print one, and print the other mirrored |
|  | Stage connector piece | 1 | arm/stage_connector.stl | |
|  | Stage cover | 1 | arm/stage_cover.stl | |

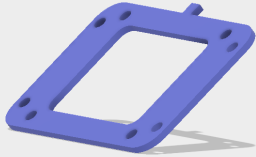

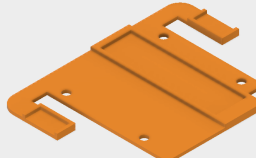

RobotMissions.org - Robot Platform 3D Printed Pieces

v1.0 - Oct. 8, 2016

| | item | qty | file | instructions |
|---|-----------------------|-----|----------------------------|---------------------|
|  | Third stage arms | 2 | arm/stage_arms.stl | |
|  | Stage connector piece | 1 | arm/stage_connector.stl | |
|  | Stage cover | 1 | arm/stage_cover.stl | |
|  | End effector mount | 1 | arm/end_effector_mount.stl | print with supports |

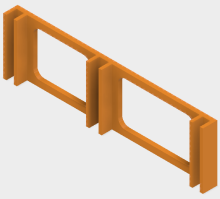

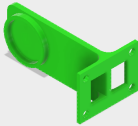

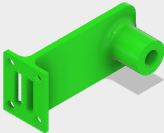

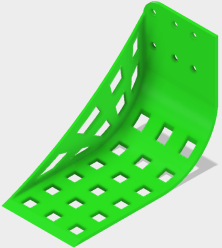

RobotMissions.org - Robot Platform 3D Printed Pieces

v1.0 - Oct. 8, 2016

| | item | qty | file | instructions |
|---|-----------------------------|-----|---------------------------------------|--------------|
|  | Scoop mount plate | 1 | arm/scoop_mount_plate.stl | |
| Scoop | | | | |
|  | Scoop to end effector mount | 1 | scoop/scoop_to_end_effector_mount.stl | |
|  | Servo mount | 1 | scoop/servo_mount.stl | |
|  | Pivot left mount | 1 | scoop/pivot_left_mount.stl | |
|  | Pivot right mount | 1 | scoop/pivot_right_mount.stl | |

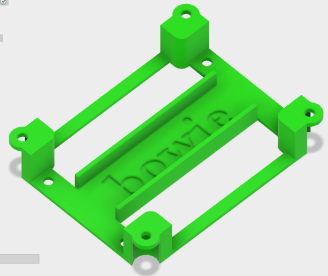

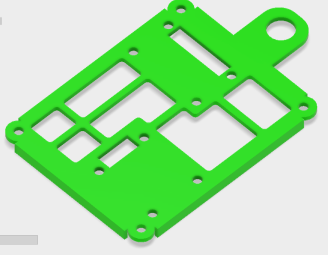

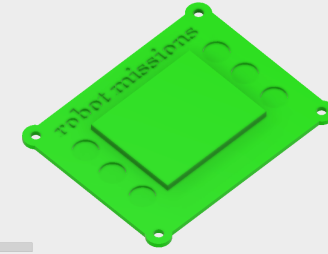

RobotMissions.org - Robot Platform 3D Printed Pieces

v1.0 - Oct. 8, 2016

| | item | qty | file | instructions |
|---|---------------------------------|-----|------------------------------|---|
|  | Mount support beam | 1 | scoop/mount_support_beam.stl | |
|  | Servo arm | 1 | scoop/scoop_servo_arm.stl | |
|  | Pivot support left (with curve) | 1 | scoop/pivot_left.stl | |
|  | Pivot support right | 1 | scoop/pivot_right.stl | |
|  | Scoop half left and right | 2 | scoop/scoop_half.stl | print one, and print the other mirrored |
| Electronics | | | | |

RobotMissions.org - Robot Platform 3D Printed Pieces

v1.0 - Oct. 8, 2016

| | item | qty | file | instructions |
|---|---------------------------------|-----|--------------------------------|--------------|
|  | Board mount | 1 | electronics/board_mount.stl | |
|  | Sensor & Xbee plate | 1 | electronics/sensor_plate.stl | |
|  | Top plate | 1 | electronics/top_plate.stl | |
|  | Antenna holder | 1 | electronics/antenna_holder.stl | |
| Power supply area | | | | |
|  | Base to power supply area mount | 1 | power supply/base_mount.stl | |

RobotMissions.org - Robot Platform 3D Printed Pieces

v1.0 - Oct. 8, 2016

| | item | qty | file | instructions |
|---|-----------------|-----|----------------------------------|--------------|
|  | Bottom tray | 1 | power supply/bottom_tray.stl | |
|  | Bottom supports | 8 | power supply/bottom_supports.stl | |
|  | Middle tray | 1 | power supply/middle_tray.stl | |
|  | Middle supports | 8 | power supply/middle_supports.stl | |
|  | Top plate | 1 | power supply/top_plate.stl | |
