Who Where Why

Part of the Hackaday worldwide live event! Teams around the world will enter their ideas in the Hackaday Prize design concept challenge.

Hackaday Prize 2016

1

Design your concept

March 14th - April 25th

2

Anything goes

April 25th - May 30th

3

Citizen scientist

May 30th - July 11th

4

Automation

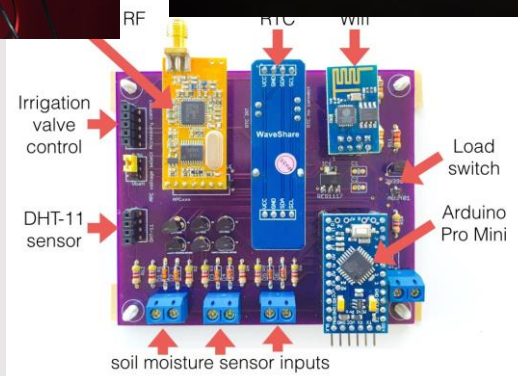

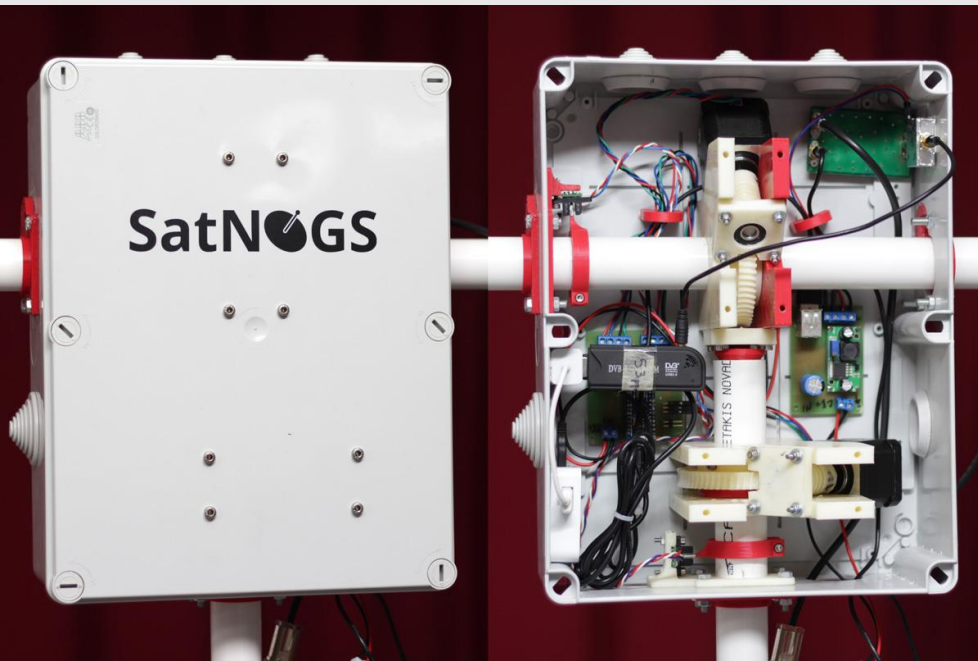

July 11th - August 22nd

5

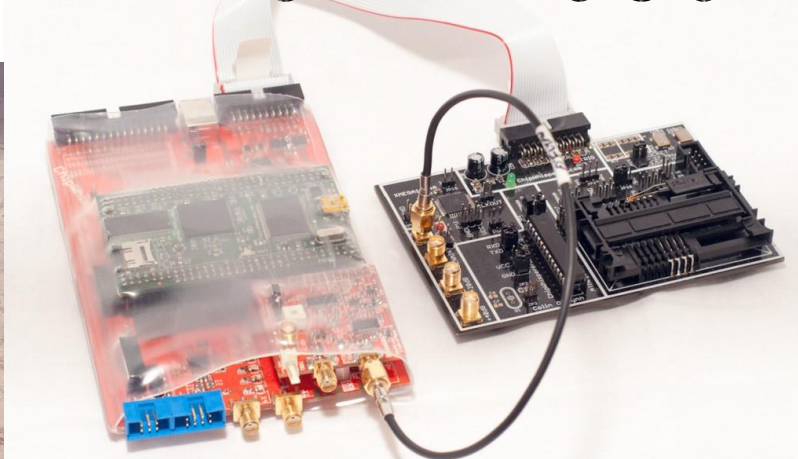

Assistive technologies

August 22th - October 3rd

NEED INSPIRATION?

STILL NOT ENOUGH?

HOW TO ENTER

1. Big things start with just an idea, and if you want them to, concept drawings can bring in collaborators.
2. Choose your challenge (Anything goes, Citizen sc., Automation, Assistive Tech.)
3. Check for important dates
4. Project Profile. Create a project profile on Hackaday.io, completing all required fields and following all instructions. Submit the Project to 2016 Hackaday Prize.

Judging criteria for challenges 1-5:

- Is there a well thought out idea that is clear as to what the intention is?
- Does the project address the challenge?
- Is the project well documented?
- Is there a system design, CAD model or napkin sketch?
- Are there four project logs? (not applicable for Challenge 1)
- Is the project creative, original and pushing some boundaries?
