

The Widget Cancer Ribbon: What you need is a bigger screen, so the Cancer can Multiply!

Combining Files in MS Word.

Menuindex with **Limitations**,
in a scroll-able, onscreen list.

Menuindex

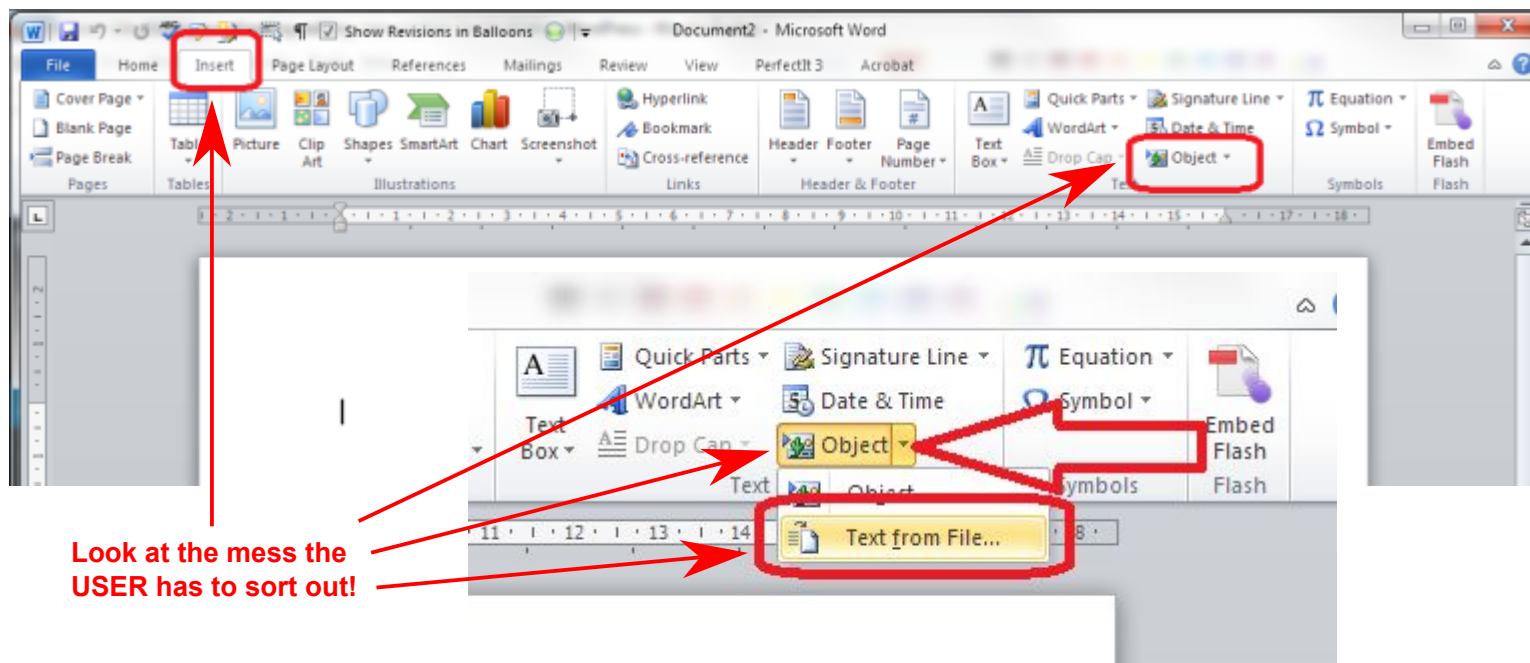

- C...
- COmbine Files
- File
- C...
- CLose
- COmbine
- New
- Open
- Save

Both look-ups work!

Menuindex Boosts the
Intelligence, Intuition and Self
Confidence of Users.

Menuindex does not replace
the conventional UI, but
enhances it for first time,
occasional, and forgetful users.

Users detest being forced to rummage through a Chaotic Mayhem of
Widgets to find the **Widget Maze Path** the mouse in your hand is seeking.
