

# How User Productivity is Crippled by: Was this information helpful?

**EVERY User** has wasted time that "Limitations" listed in Menuindex would have saved.

This diagram shows how Users are constantly denied the information they need to be productive with computers. Instead, they are forced into a **Frustration Zone**, wasting their valuable time searching in obscure places on the Internet, to find, and try to remember, the information that they must have to do their tasks.

USER has to sort out!

## Word features that are not fully supported in Word Starter

Applies To: Word Starter 2010

Microsoft Word Starter 2010 is a simplified version of Word that comes pre-loaded on your computer. Word Starter includes features that are basic to creating and working with documents, but it does not include the rich set of features found in the full version of Word. This article lists the differences in features between Word Starter and the full version of Word.

If you find that you need a richer set of features than what Word Starter provides, you can easily upgrade from Word Starter to Word. On the **Home** tab, click **Purchase** to visit an online retailer, where you can purchase and download Office right away.

### Document content

This feature in Word...	Is supported this way in Word Starter...
Add-ins	Not available Add-ins cannot be installed with Word Starter. If you open a document that was created with the help of a Word add-in, some features in the document may not be supported.
SmartArt graphics	Not available to create If you open a document that contains SmartArt, you can edit and format the text, format the shape, and cut, copy, paste, or delete the entire SmartArt graphic.
Bookmark	Not available to create If you open a document that contains bookmarks, you can click bookmark links to jump to the bookmarks.

**An Insulting Joke?**  
Was this information helpful?

Users detest wasting their time:

- 1) Searching for functions that are disabled, or do not exist;
- 2) Searching for a web page that has a very long list of all the disabled features - which they are supposed to remember!!!
- 3) Going back to continue working, with increased stress caused by frustration, and losing time.
