WATER FACTS WE HAVE LEARNED

- Six thousands (6,000) people die everyday from water related disease.
- Estimated one child in every 20 seconds.

- Water an essential element of life.
- A person can survive for about a month without food,
- But only a week without Water.

- Some girls go to get unsafe drinking water from lakes and rivers instead going to school.
- These girls are treated as slaves. And sometime they are brutally attacked

IMPORTANCE IN PAKISTAN

- Pakistan also among those countries which were badly affected by natural disasters on 2010.
- In 2010, flood was erupted in majority parts of the country .
- Which left the country in a state of NATIONAL EMERGENCY.
- Victims need food, water and shelter.
