The image shows a technical drawing of a mechanical part, possibly a cross-section of a shaft or a similar component. The drawing is composed of several irregular, jagged lines that define the shape of the part. There are two distinct holes: a small circular hole on the left side and a larger circular hole on the right side. The number '11' is positioned in the upper right quadrant of the drawing, and the number '14' is positioned in the lower left quadrant. The drawing is rendered in black lines on a white background.
