

An abstract graphic of a house with glowing green lines and white squares. The house is composed of a series of white squares of varying sizes and positions, connected by thin, glowing green lines that form the roof and walls. The lines are slightly blurred, creating a sense of motion or depth. The background is black.

IUT! IoT

May 1 – June 12

Let's take the Internet of Things and make it practical for everyday life. The Internet of Useful Things showcase a way to build a better tomorrow with the data you track and analyze. Prevent sick cattle and livestock with an IoT Farm, create a way for denizens find clean well water in rural villages, or reduce energy waste in a smart home. Make for the greater good of your home, your city, your nation.
