<http://www.digikey.com/product-detail/en/SK100M050ST/338-1671-ND/1627384> (output cap for ld1117v33 using stricter ti datasheet for reference which requires an esr between .3ohm - 22ohm <http://www.ti.com/lit/ds/symlink/lm1117-n.pdf> the cap is used for loop stability more than filtering here since this is a low drop out voltage oscillator)
