

UNITED STATES STRATEGIC COMMAND (USSTRATCOM) MISSION

United States Strategic Command (USSTRATCOM) detects, deters, and prevents attacks against the United States and its allies - joins with the other combatant commands to defend the nation should deterrence fail.

USSTRATCOM integrates and coordinates the necessary command and control capability to provide support with the most accurate and timely information for the President, the Secretary of Defense, other National Leadership and regional combatant commanders.

USSTRATCOM combines the synergy of the U.S. legacy nuclear command and control mission with responsibility for space operations; global strike; Defense Department information operations; global missile defense; and global command, control, communications, computers, intelligence, surveillance and reconnaissance (C4ISR), and combating weapons of mass destruction.

This dynamic command gives National Leadership a unified resource for greater understanding of specific threats around the world and the means to respond to those threats rapidly.
